

# Delaware Valley Integration

## Overview

Delaware Valley is one of the biggest wholesalers in the United States. In order to optimize their operations, they require the receiving boxes to have a specific label that can be easily read.

There is a file with the Purchase Order information that can be submitted to Delaware Valley in a CSV (comma separated value) file format.

## Instructions

To activate this option, please follow the next instructions.

1

Go to **Setup>>Settings**.

2

Under the Integrations option, click on **Delaware Valley**.

3

Check the **Delaware Valley** option and enter the customers that represents Delaware Valley in your company and need this special labels.

4

Finally, select the Label Type, there are two options available:

- **Separated:** Delaware Valley labels will be a different label than your shipping label. Each label size: 4 x 3 inches
- **Consolidated:** Delaware Valley information will be consolidated with your shipping information into one single label. Label size: 4 x 6 inches. This doesn't apply for companies with Custom Labels
